

Put Us to Work on Your Network

federated
SERVICE SOLUTIONS

Business is all about the bottomline.

As a single source IT provider delivering seamless support for corporations around the world, our number one focus is saving you time and money. Our flexible, experienced team can provide the solutions your business needs, in scope, and on time -- regardless of complexity.

PROOF OF SUCCESS

Outsourced IT Support

Eliminated the need for full-time salaries and constant reporting by delivering on-demand IT support.

Energy Management Systems (EMS) Installation

Installed EMS devices in retail and restaurant settings allowing the company to realize ROI and savings on their energy costs in just 12 months.

Fiber Extensions

Provided cost effective project management support for a nationwide retailer needing demarc extensions and fiber backbones.

Equipment Sourcing and Inventory Management

Kept our customers focused on their business by delivering comprehensive equipment sourcing and inventory management for instant national fulfillment of pre-staged and pre-tested devices.
